

Free AutoCAD and Revit Training to Qualified Small Businesses

Through the Louisiana Department of Labor Small Business Employee Training Program (SBET).

If your company has 50 or fewer employees and has been in business for 3 or more years, you may be eligible for a 100% reimbursement through the Louisiana Small Business Employee Training Program.

CADtech Seminars, LLC is a Louisiana based company that has been teaching AutoCAD to AEC firms through both on-site and nationwide seminars for the past 14 years. While we still offer training nationwide, we are expanding our local training to include the Louisiana Small Business Employee Training Program.

What is SBET and how does it work?

The Small Business Employee Training Program (SBET) is designed to benefit business and industry by assisting in the skill development of existing employees through individual, standardized (off-the shelf) training. *Employers are reimbursed for tuition and required textbooks and manuals once the training has been completed and proper documentation has been submitted to the Louisiana Department of Labor (LDOL).*

Why use CADtech Seminars?

The advantage of using CADtech Seminars for on-site training is that our instructors have many years of real-world experience using AutoCAD, Revit and related design software. The trainers understand the needs of AEC and design firms and can use examples that relate to projects you have in your office. CADtech Seminars is an Autodesk Authorized Publisher and our company's mission is to teach. We are not dealers or salesmen for any company, so you will receive non-biased information and training.

What AutoCAD and Revit Trainings do you offer?

We provide two types of AutoCAD and Revit training – On-Site training and Classroom style training.

AutoCAD:

We have several AutoCAD and AutoCAD related courses available at this time. These courses include AutoCAD Updates; AutoCAD Essentials, Fundamentals, Beyond the Basics, Intermediate, 3D Drawing & Modeling, Plotting & Sheet Sets, and Advanced courses; as well as AutoCAD Architecture and AutoCAD Electrical.

Revit:

We offer several Revit courses at this time. These courses include Revit Architecture, Revit Structure and Revit MEP. Additional Revit courses include Fundamentals, Collaboration Tools, Site & Structural Design, Conceptual Design & Visualization, BIM Management, BIM Management & Family Creation, Advanced Family Creation, and a Revit Manager's Class.

Go to www.cadtechseminars.com/free for detailed descriptions of each course.

Dates and Availability...

We are currently filling our calendar for Spring and Summer training sessions.

Go to www.cadtechseminars.com/sbet-dates.htm to view our training availability calendar. Please review our training courses and call or e-mail us if you have questions or would like to discuss specific topics and availability. Our number is 985-674-0234 and our e-mail is training@cadtechseminars.com.

How do I apply?

First, contact us to schedule your required training dates and choose a course or courses for training. (Detailed course descriptions are on our website at www.cadtechseminars.com/free.)

Second, fill out the State's SBET training application.

The application is a simple online questionnaire. No red tape. If you have questions or need assistance with the application feel free to call us a 985-674-0234. If you prefer, we can handle **all** of the State paperwork for you. To learn more about the SBET free training program, go to the state's website at www.ldol.state.la.us/ or, you can go directly to our website at www.cadtechseminars.com/free.

IMPORTANT NOTE – In order to be reimbursed for the training, the application must be submitted and approved prior to the training taking place. The state requests that SBET Applications be submitted *at least 30 days prior to the first scheduled day of training.*

For more information on requirements, please see our website at www.cadtechseminars.com/free.

I look forward to hearing from you soon.

Sincerely,

Ken Colgan
